ACADEMIC PROJECTS

- ❖ **ShopO (Shopping web app)**
Language / Database – React Js, Mongo DB
 - A simple web app providing CRUD functionality for admin and allows users to select product and perform transactions. Users can view transaction details both in tabular and graphical way on Dashboard
- ❖ **Food Engine (Food Ordering web app)**
Technologies Used – React Js, Firebase
 - A react based Web app which allows users to add product items to the cart out of the available menu and place their orders.
- ❖ **JARVIS (Voice Assistant) - Python**
 - A simple voice-based assistant to simplify user tasks. It takes the user input in form of user's voice and processes it and return the output in various ways like an action to be performed or the search result is spoken out to the end user
- ❖ **Personal Portfolio - React Js**
(https://bikram294.github.io/Dev_Portfolio/)
- ❖ **Expense Tracker - React Js**
Web app to keep track of your daily expenses

ACHIEVEMENTS & PARTICIPATIONS

- Scholarship for academic performance
- Solved 250+ questions on LeetCode. (<https://leetcode.com/bikramdeep/>)
- 5-star coder in Hacker Rank (Problem solving) - https://www.hackerrank.com/bikram_singh294
- Member of Social Club of college (DSW)
- Organized peer programming sessions and webinars to impart knowledge among peers and moderated many coding events.
- Member of Computer Society of India
